# What you should know before your first date with Azure

**Eric Berg**

Azure Lead Architect at COMPAREX

Microsoft MVP Azure + Cloud and Datacenter Management

# What about your first date?

Who was your date?

What were you wearing?

Where did you go?

What did you do?

Who paid?

What was allowed?

# What about your first date?

Who was your date?

What were you wearing?

Where did you go?

What did you do?

Who paid?

What was allowed?

What is Azure?

How do you use it?

Which Region is right?

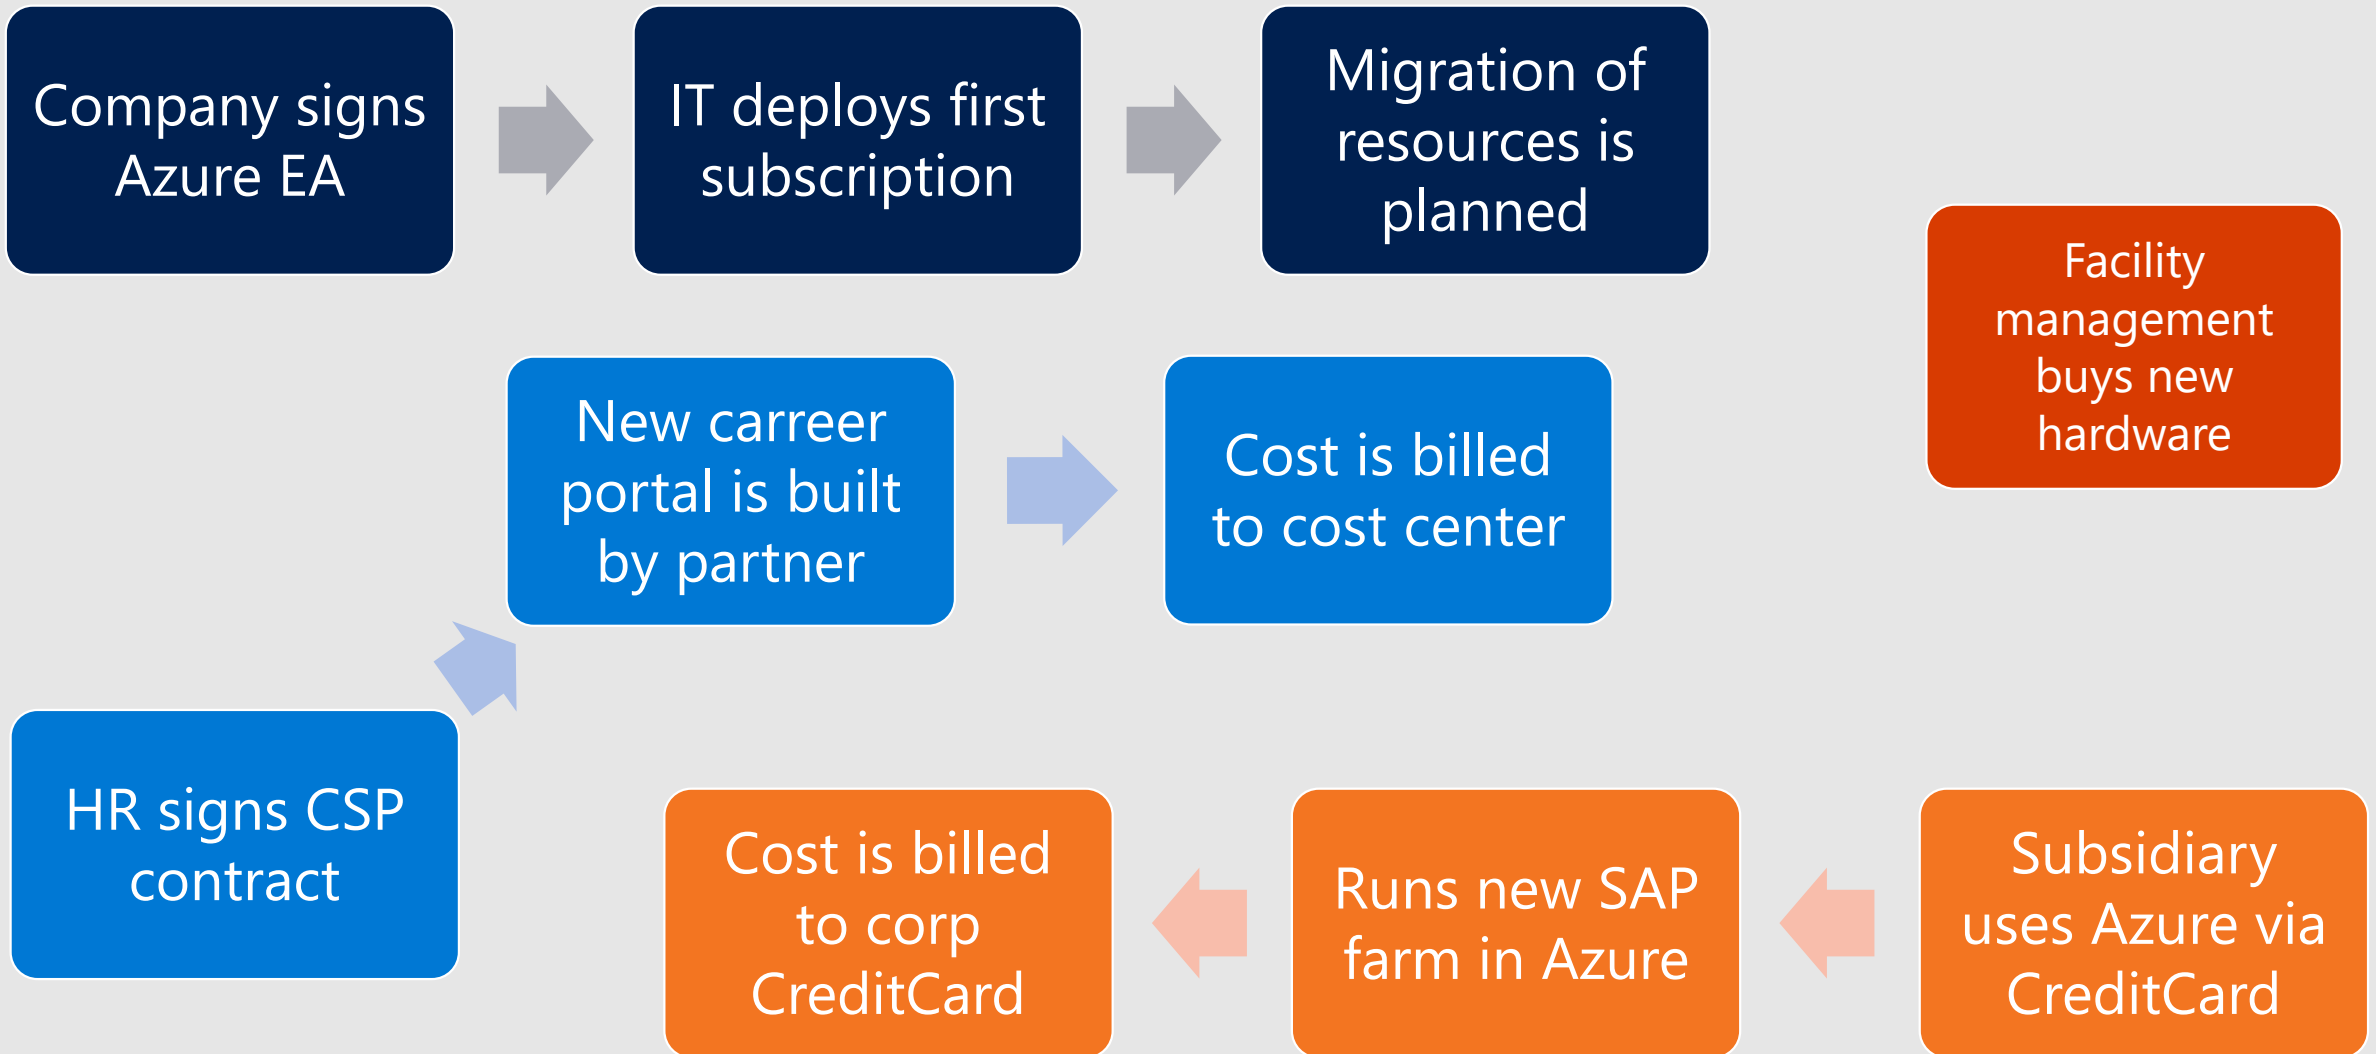

Which services are relevant?

Who pays the bill?

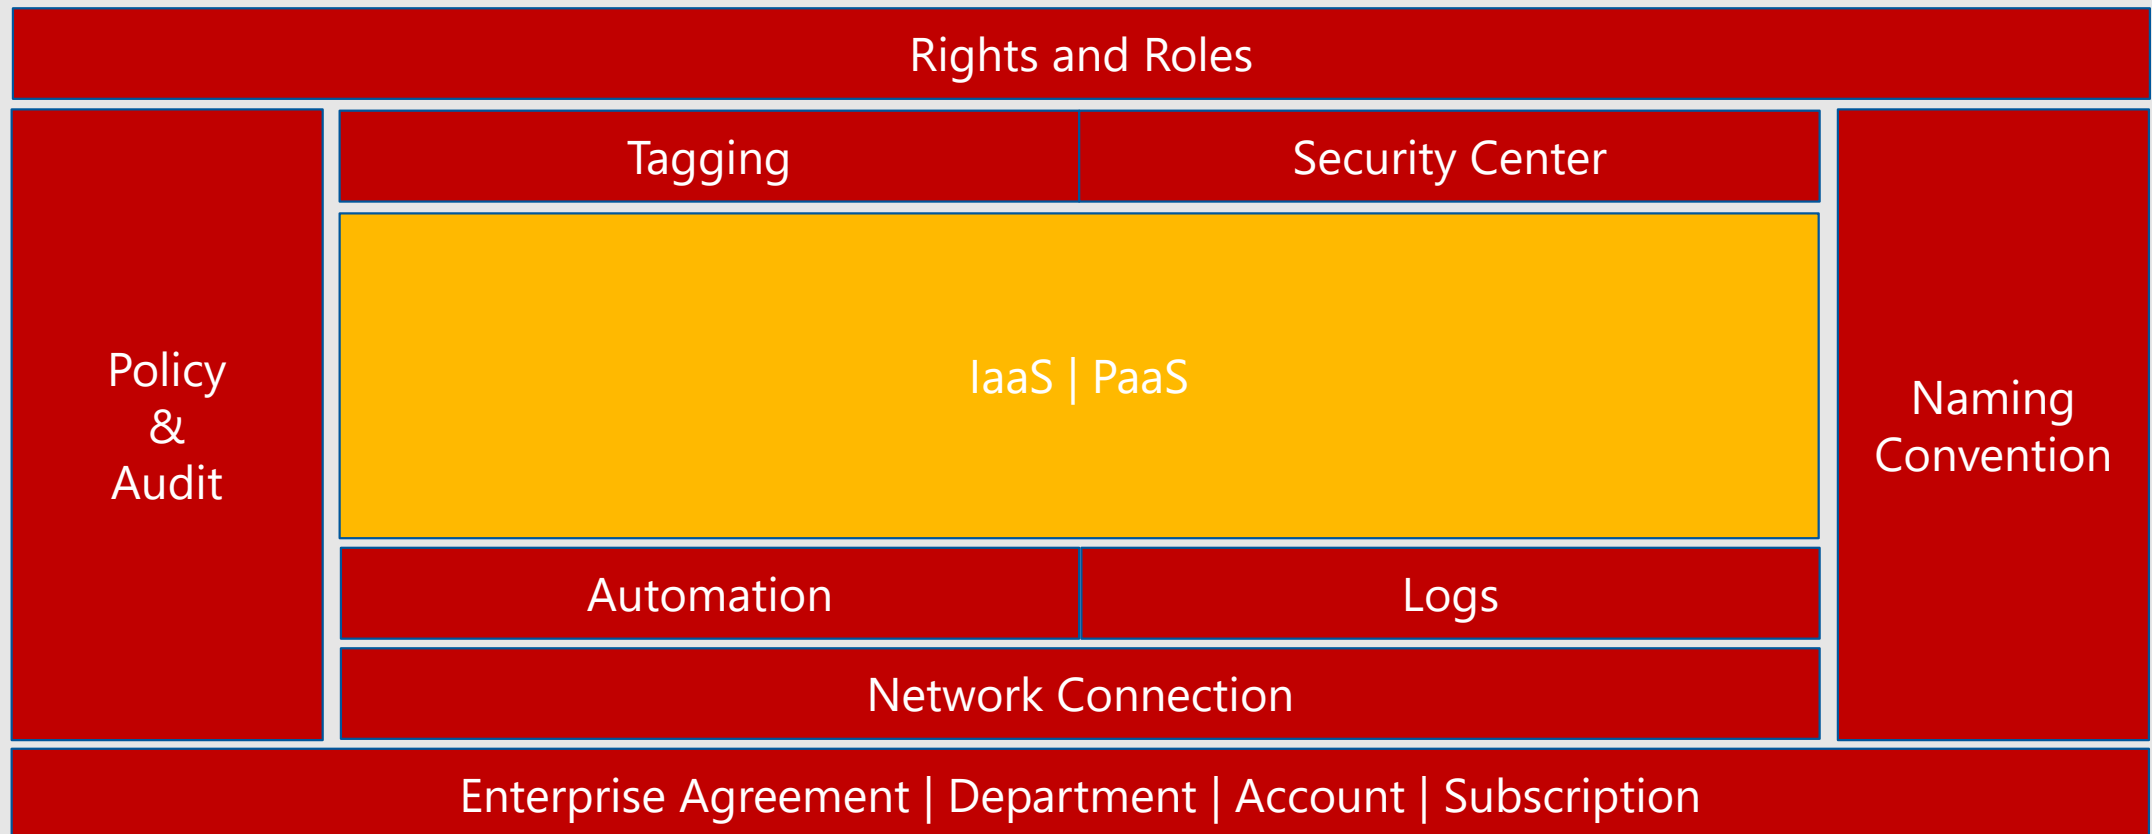

Are there any rules?

# What can go wrong?

# What about Azure Governance?

# What to consider?

Azure Governance Concept

Azure Resource Policies

Azure Resource Locks

Azure Resource Manager Templates

Azure Automation

Azure Cost Control

Role Based Access Management

Monitoring, Security, Backup, Disaster Recovery

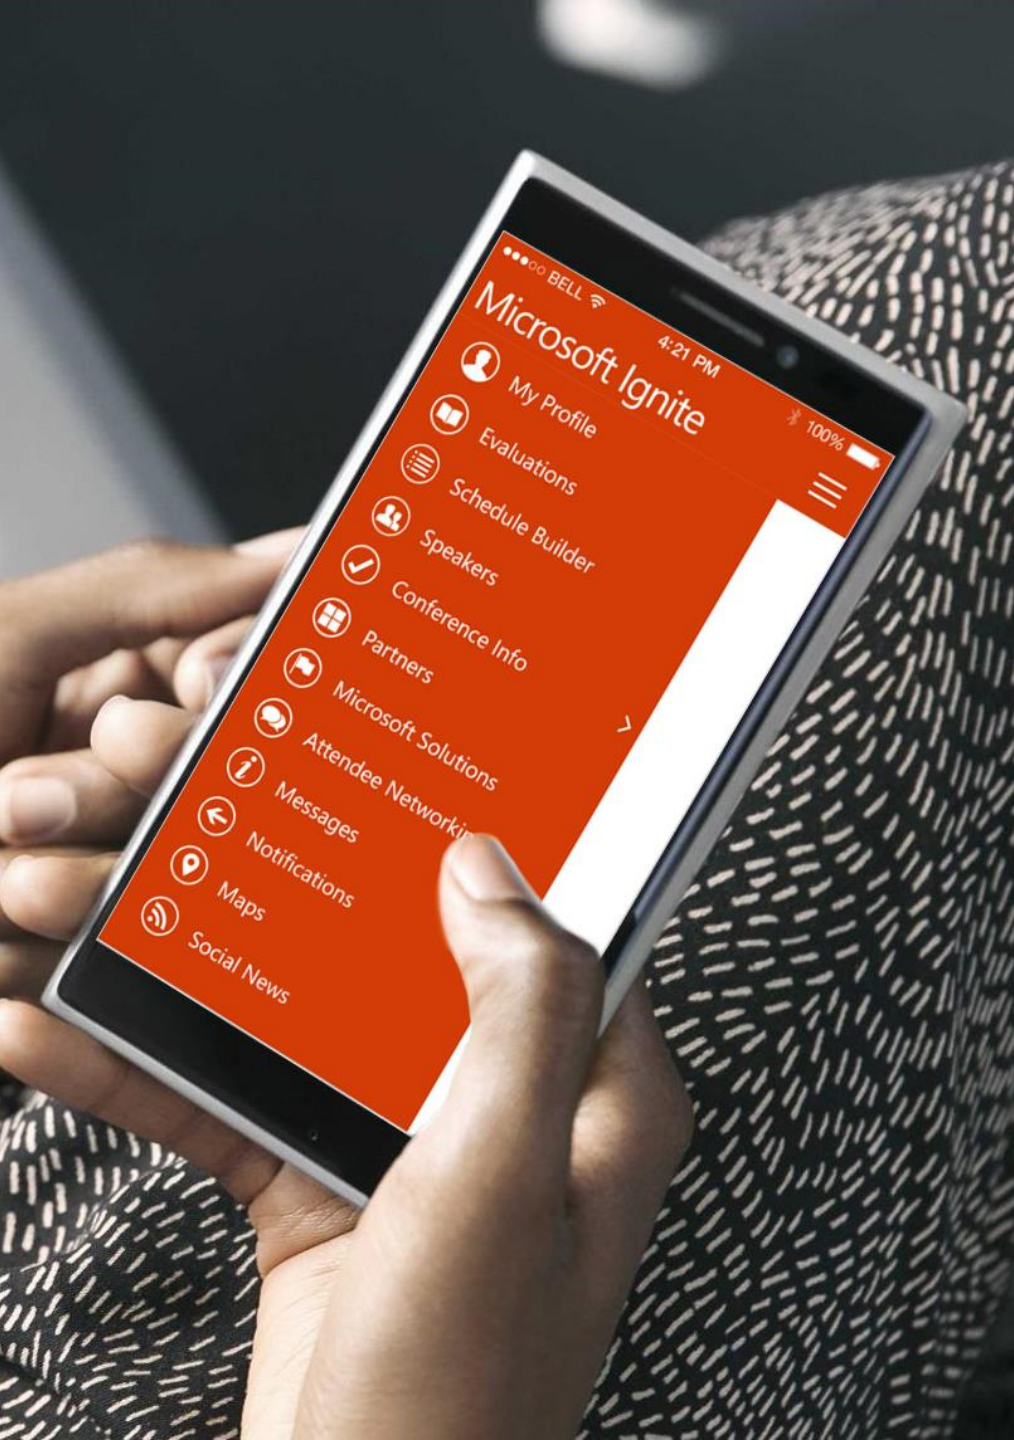

.....

# Demo
